*Hello dear...!*

## Project Introduction.

- *Project Name: NRX (NirmalX).*
- *Blockchain: BEP-20 (Binance Smart Chain).*
- *Token Type: Hybrid Decentralized Utility Token.*
- *Objective: Transparent, community-driven crypto ecosystem ensuring fairness and long-term growth.*

*This project does not provide any financial or investment advice. Participation is voluntary and at your own risk. All transactions are governed by smart contract logic on the blockchain. NRX adheres to anti-fraud, anti-scam, and AML (Anti-Money Laundering) principles. Users are encouraged to conduct their own due diligence (DYOR) "Do Your Own Research".*

*Smart Contract Audit: To Be Audited / Pending (CertiK, SolidProof, etc.) Liquidity Lock: 100% Locked via Smart Contract. Ownership: Renounced or Multi-Signature Controlled. Compliance: Aligned with VDA (Virtual Digital Asset) guidelines where applicable.*

*All liquidity goes directly to the decentralized liquidity pool (PancakeSwap). Creator has no access to user funds. Governance will transition into a DAO (Decentralized Autonomous Organization). Community will have voting rights for major project decisions.*

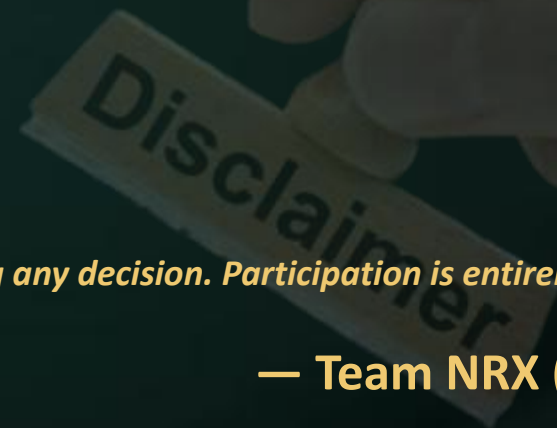

## Compliance Measures

|-----------------------------------------------------------------------------------------------|-------------------------------------|-----------------------------------|
|  5% Burn     | <i>Permanently reduces supply</i>   | <i>scarcity → price support.</i>  |
|  2% Treasury | <i>This ecosystem will continue</i> | <i>to thrive for a long time.</i> |
|  1% Creator  | <i>innovation, maintenance</i>      | <i>&amp; ecosystem growth.</i>    |
